

Community Garden

Matt Gale

**Past Teaching Principal
Nganambala School**

"As for the garden, It's been a huge success! With the big wet up here, we've been feeding students and community members with our sweet potatoes, chillies and water spinach.

We've just planted 3 plots with water spinach for the wet and more herbs and peanuts as a legume fallow.

Along the fence line, we've also planted cassava, a root crop and also eating and cooking bananas in the fenced area in the back! It's exciting and it's all happening. What a success!

*They also understand their math's much easier
The kids just love gardening Kerry! Thanks so much!!! "*
